

## JCST FEE 2024–25

The Surgical Royal Colleges of the UK and Ireland continue to support trainees and surgical training and are committed to ensuring that the highest standards continue to be maintained. The Colleges are also very aware of the current financial pressures on trainees and have recently taken the decision to freeze the JCST fee at £260 for another academic year. This will result in the fee being held at this level for eight consecutive years.

The JCST fee continues to support not just the running costs of all essential services and activities, but all the various innovations and additional investments in IT and training infrastructure as delivered by the [Joint Committee on Surgical Training](#) (JCST) on behalf of the four Colleges.
