Job Description

The post is based at the University Hospitals of Leicester. It offers sub-specialist training in a broad range of reconstructive cosmetic surgery and allied procedures in an interspecialty setting.

The placement offers training in a nationally recognised Reconstructive Cosmetic Surgery Unit. The job plan and training programme will be tailored to the needs of the successful applicant to give them the most appropriate training opportunities and will include theatre sessions and outpatient clinics. The successful applicant will be expected to participate in research and teaching programs.

The Consultants provide a service to NHS and Private Patients with surgery being undertaken at University Hospitals of Leicester (Leicester Royal Infirmary and Glenfield Hospital) and at local independent establishments (Spire Leicester Hospital and Nuffield Health Leicester Hospital).
